4. Save payees

You can add and save new payees so you don't have to enter the same details when you want to make payments.

The bank account you use to make your loan repayments is also saved automatically, so you can pay into it without having to enter and save those details each time.

When you click the "Pay or Transfer" button, you have the option of using a saved account, or adding a new account which can be saved. Just select the "Save Account" button when you enter the details for your payee and it will be saved for future use.

The screenshot shows the 'Pay a new account' form in the Connective Elevate app. At the top, there is a hamburger menu icon and the Connective Elevate logo. The title 'Pay a new account' is prominently displayed. Below the title, a prompt says 'Enter any Australian bank account.' The form contains three input fields: 'Account name', 'BSB', and 'Account number'. Below these fields is a checkbox labeled 'Save Payee' which is checked.
